Van Tours

Island Tour—Full day or half-day

We have full day Tours, where you may visit **all island**, with lunch included. To complete your day you can swim (snorkel) and visit a sunken boat (II world war) or some underwater caves. Also you may visit some fajãs, walking through old trails. Tell us about your preferences and we will suggest best tour.

Snorkeling

We have snorkel Tours, in sea or Natural Swimming pools among volcanic rocks. Also you may visit a sunken world war II english boat, IRISKY, or some underwater caves or just enjoy the beautiful waters and sea life with an experience of 2 - 3 hours. This experience may be included in our island van Tours.

Pico Mountain

At Pico Island you may climb the Mountain or just visit The Visitors Centre and have a small experience of climbing the mountain, included in a Pico Tour. You will be accompanied by a local guide, who will accompany you to the mountain, walking about three hours up and three hours down, with breathtaking views of the island, sea and neighbour islands. We have partners with boat trips from São Jorge to Pico or by ferry.
